Refinishing Service at The Trunk Shop

Upon evaluation, some people decide that refinishing or restoring their trunk is more than they want to do. At The Trunk Shop we can refinish or restore your trunk using the same care and quality craftsmanship that we use on our own trunks.

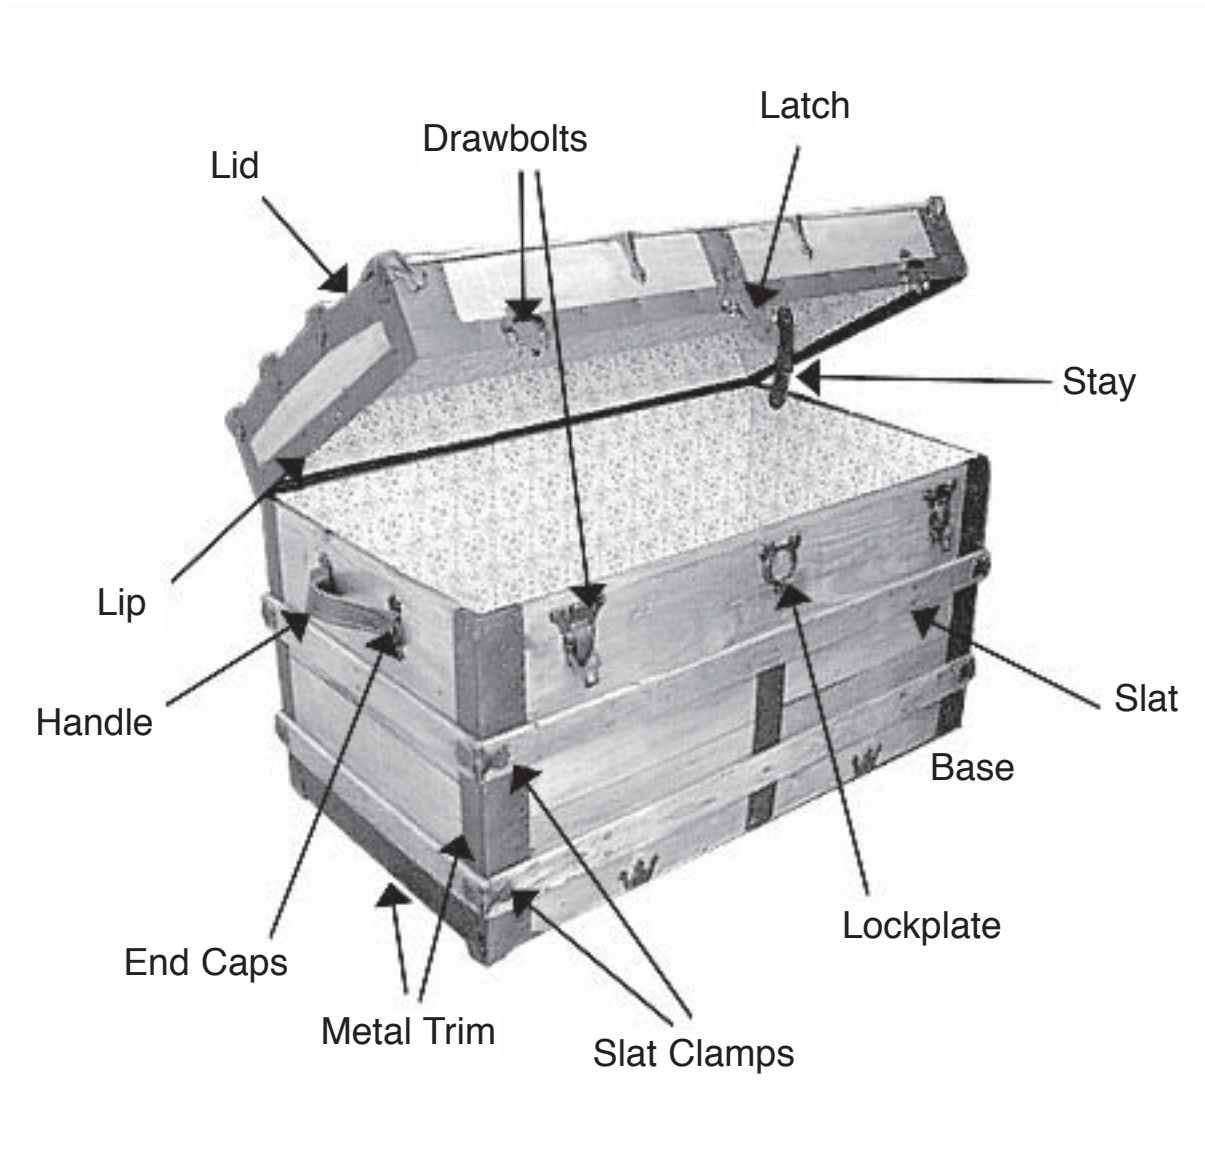

Please call for a consultation and free estimate for work on your trunk.

Toll Free: 1 877 247-0389

Liner Paper

We have a large selection of liner paper. Please call the workshop for more details.

Anatomy of a Trunk.

Even though there are many styles of trunks most of them use the same types of parts. We've listed the more common parts here with a brief description of each.

Descriptions

Base:

The bottom part of the trunk.

Drawbolt:

A two part piece of hardware that tightens the base and lid together with a hook and clamping device.

End cap:

Used to dress up the end of the handle or to actually hold the handle on.

Handle:

Made from leather, brass, or steel. Used to lift the trunk.

Lid:

The top part of the trunk.

Lip:

A 1" wide strip of steel around the bottom of the lid to help seal the trunk.

Latch:

Attaches to the lockplate to secure the trunk.

Lockplate:

Usually attached to the bottom of the trunk. Holds the latch.

Metal trim:

Wide strips of flat sheet steel used to dress up and reinforce the trunk.

Slat:

Used to reinforce the trunk, usually made of oak or some other hardwood.

Slat clamp:

Holds the slat onto the trunk.

Stay:

A hinged metal device that holds the lid of the trunk up. Many older trunks had cloth stays.

Circa

The term "circa" means around this time. That is, circa 1875 would mean around 1875 give or take a few years. The abbreviation for circa is ca.

Fasteners: Tacks, Nails, Rivets, Buttons, and Lid Lifters

Trunk Tacks

Rivets

Brass Plated

D-3741 1/2" long
D-3751 5/8" long
D-3761 11/16" long
D-3771 7/8" long

Heads: 3/8" dia
Shaft: 5/32" dia

\$5.75

\$3.00

D-3701
Split Rivet Cap
3/8" dia.

All rivets and caps sold in lots of 50

Directions for using split rivets with caps.

1. Tap the split rivet through the wood and/or tin, etc., exposing the pronged ends.
2. Place a piece of wood or metal against the head of the rivet.
3. Place the rivet cap over the exposed rivet prongs and gently hammer. The rivet prongs will curl into the rivet cap.

Screw Posts

\$1.50 per set

Brass

Brass plated steel
Appx 215 nails per pkg.

\$2.50

S-3571
CUT NAILS CLOUT 3/4" length
Similar in design to Shingle Nails, but made from lighter gauge steel. Useful for nailing shingles, for box and crate construction and for the application of thin siding and paneling. Also used for furniture repair, cabinet work, batten doors, and counter tops.
Appx. 160 per 1/4lb.

\$7.00

S-3572
CUT NAILS Headless Brad 1" length
Used in wood application where a slender nail will minimize splits. Often used for furniture repair, cabinet work, and picture framing.
Appx. 260 per 1/4lb.

\$3.00

S-3573
CUT NAILS Fine Finish 1 1/4" length
These slender nails are popular for wood applications where a slim brad head nail is appropriate: furniture repair, cabinet work, casing, batten doors, paneling, and counter tops.
Approximately 100 per 1/4lb.

\$2.00

S-3575
CUT NAILS Shingle
1 3/4" length
Shingle nails have blunt points to reduce wood splits, and the cut nail shank holds tight.
Appx 35 per 1/4lb.

\$2.00

S-3574
CUT NAILS Shingle
1 3/8" length
Appx. 50 per 1/4lb.
Shingle nails have blunt

\$8.50

D-4836
Open - 8" long x 1" w
Brass Plated Steel

All stays can be used on right or left hand side.

Adhesives

Zap Glues (Cyanoacrylate Adhesives)

These Zap glues are a great time saver for the professional furniture restorer. They work great on small veneer jobs, regluing chairs, and other shop jobs. They work very nicely in conjunction with cleats for repairing cracks and splits in the body of a trunk. Requires NO clamping. Please note: This glue has a 12 month shelf life. To extend the shelf life of unopened bottles almost indefinitely, store them in a freezer at 0 degrees farenheit. The adhesive must be warmed to room temperature before use. Do not store opened bottles in freezer or refrigerator.

CA-SLO ZAP Super Thick, Slo Cure CA Adhesive (Yellow Label)

G-6880
1 oz Bottle **\$10.00**

G-6890
2 oz Bottle **\$17.00**

ZAP/CA Super Thin Penetrating Adhesive (Pink Label)

G-6881
1 oz Bottle **\$10.00**

G-6891
2 oz Bottle **\$16.00**

G-6871
4 oz Bottle **\$27.00**

This thick glue is often used as a filler. It is best for those jobs where assembly time is required, allowing 30 to 40 seconds of positioning time. Cures in 1-2 minutes (You can use ZIP-KICKER to accelerate cure when needed.)

Zap/CA is very thin, penetrating, and instant curing. One or two drops are all that's necessary. It's wicking action allows assembly prior to gluing. Hold parts tightly together and apply a drop of Zap/CA to the outside of the seam. It penetrates into the joint and cures in 10-15 seconds. Great for tightening loose chair joints.

CA+ZAP-A-GAP Thick Gap Filling Instant Adhesive (Green Label)

G-6882
1 oz Bottle **\$10.00**

G-6892
2 oz Bottle **\$16.00**

G-6872
4 oz Bottle **\$27.00**

CA+Zap-A-Gap is a bit thicker and slower than ZPA/CA, allowing more assembly time. It is a great gap filling adhesive for those jobs with spaces or cracks of less than 1/16". Apply the glue then place the parts together. Cures in 30-45 seconds.

ZAP GEL

G-6887
.11 oz Tube **\$2.50**

G-6888
.70 oz Tube **\$10.00**

A very concentrated CA-like thick jelly. With the same formulation as Zap-a-gap. Ideal for vertical surfaces as it will not run. One drop is all it takes. Bonds in 15 seconds. Cures in 15 minutes

CHAIR LOC

J-6820
3 oz Bottle

\$7.00

Repairs loose joints by penetrating wood fibers and then swelling them to make wood joints lock tightly in place. Comes in a three ounce plastic squeeze bottle with applicator tip for easy use in tight quarters. Not a Glue.

Zip Kicker Aerosol Accelerator for Super Glues

G-6893
2 oz. Pump Bottle **\$8.00**

G-6894
5 oz. Aerosol Can **\$12.00**

Handy pump bottle. Zip Kicker has a special formula designed to instantly set the surface of the Zap glues. Just spray on. (Note: The glue will still need to be allowed its full cure time).

Z7 DEBONDER Debonding Agent for Super Glues **G-6895**
1 oz Bottle **\$6.00**

Uniquely formulated water-based Z7 DEBONDER will soften and remove cured ZAP adhesives. Simply apply to cured adhesive, allow to penetrate (26 seconds), rub off softened adhesive. It's also great for removing pesky drops of glue from fingers. Contains Acetone.

Z-ENDS TIPS **G-6896**
\$5.00

Package of 10 Z-Ends & one 12" coil of Micro Dropper Tubing

An extending reach, slick tip for ZAP Glues. Allows you to get into hard-to-reach areas. Use the Tubing on ZAP/CA. Use the Z-ENDS for Zap-A-Gap and Slo-Zap.

5 MINUTE EPOXY GLUES

G-6824
5-Minute Epoxy Glue/Quick Shot Automatically dispenses into equal parts with one push. Net Wt - 1 oz **\$6.00**

This product retains all of the physical strengths of epoxy adhesives while offering the added advantage of quick setting even in thin films at low temperatures. It will bond wood and nearly all other types of materials, including concrete. It achieves its terrific strength as a result of a chemical reaction when mixed with the Hardening agent. Non-shrinking.

30 MINUTE EPOXY GLUE

G-6828
Contains one 4 oz. Bottle of Resin & one 4 oz. Bottle of Hardener **\$20.00**

Specially formulated to bond fiberglass, wood, metals, plastics, etc. Produces a tough permanent bond in just 30 minutes, is resistant to shock and solvents, non-brittle, easy to sand, and has excellent gap filling characteristics.

"When In Doubt, Don't"

Our customers often ask:

What is my trunk worth?

There are several ways to determine the value of your trunk.

1. You can take it to an antique dealer with knowledge and a speciality in trunks.
2. You can purchase our book, Antique Trunks: Identification and Price Guide and determine the value yourself.
3. Or you can send us a minimum of six pictures of your trunk, including different angles and interior shots, any additional markings, embossed dates or letters, and the overall dimensions, and for a \$35 fee we will prepare a written appraisal with a cover letter that goes into specific detail about your trunk.

Should I repair or refinish it?

Will I hurt or destroy the value by refinishing?

Appreciation and value of antique trunks has risen rapidly over the last decade, with many now worth \$1000 or more. Some are now recognized to have value of \$6,000-8,000 and up. With most trunks there are good techniques to stabilize and improve appearance and even increase the value and usability. However, it's also possible to lower the value by approaching the work with too little knowledge or "wrong" information.

Our book, Antique Trunks: Refinish, Repair, Restore, will guide you through the process with clear step by step information and instruction.

Ordering information for books on page 17 of the catalog.

For appraisal send information and pictures to: The Trunk Shop, 62 Canaan Back Rd. Barrington, NH 03825
or via E-mail: info@trunk.com
